PROFILE

Solutions-oriented Full-Stack Developer with expertise in Java Spring Boot, PHP, JavaScript, and SQL/MySQL. Skilled in building scalable backends, responsive UIs, and cloud-based workflows. Currently a Senior Technical Support Analyst at Dealer.com, supporting Audi Canada and leveraging HTML/CSS, Bootstrap, AWS S3/Lambda, and Salesforce. Holder of AWS Cloud Foundations certification. Seeking Java Development Employment or Internship starting February 2026.

SKILLS

- Backend: Java (Spring Boot, MVC, JPA), PHP (Laravel), REST APIs
- Frontend: HTML5, CSS3, Bootstrap, JavaScript (ES6+)
- Databases: SQL, MySQL, PostgreSQL, MariaDB, MongoDB
- Cloud & Tools: AWS (S3, Lambda, EC2), Salesforce, Git/GitHub, Docker, FTP, Slack, Agile/Scrum
- Other: Python, Rust, C# .NET, Lua, Unity3D, Golang, Stripe API

EXPERIENCE

Senior Technical Support Analyst
Dealer.com (Cox Automotive Canada) – Montréal, QC | 2022 – Present

- Primary escalation point for Audi Canada, managing high-priority dealership website issues nationwide.
- Fixed UI/UX issues with HTML, CSS, Bootstrap, and JavaScript across client websites.
- Managed FTP transfers and deployments for secure delivery of site assets.
- Authored onboarding docs and mentored new hires to speed ramp-up time.

PROJECTS

CarGo – Car Rental Platform *(Spring Boot + Thymeleaf + MySQL + AWS)*
Built a car rental system with role-based access, reservations, and AWS S3 file uploads.
https://github.com/Aleksandro-EM/CarGo

Restaurant Management System *(Spring Boot + MySQL + Thymeleaf)*
POS app with CRUD operations, DAO patterns, and database procedures.

Recipe Finder Web App *(Spring Boot + JavaScript + SQL)*
Integrated APIs with SQL persistence; dynamic forms using Thymeleaf + Bootstrap.
